DES MOINES, IA 50319 - 0069

Dear Board Members:

The Sioux County Board of Supervisors would like to express their opposition to the issuing of permits establishing the application of eminent domain for both the Summit Carbon Solutions and the Navigator Heartland Greenway CO2 pipeline projects.

While we note the many concerns expressed by our citizens regarding the safety of these pipelines, our opposition to these projects rests primarily with the fact that projects of this nature are not public utilities and should not receive eminent domain status. Unlike natural gas pipelines, fuel pipelines, and electrical transmission lines, CO2 pipelines serve no public purpose or utility. CO2 pipelines do not serve our people, our communities, or our overall economy. Based on the overall comments from constituents, we respectfully ask that you refrain from utilizing eminent domain in your pursuits.

SINCERELY
